INSPIRING MINDS

What did you enjoy most about the camp?

3M Stemwinder asked several attendees at the intergenerational camp at Oak Meadows Senior Living in Oakdale, Minn., this question.

"I liked it because we got to spend time with the seniors. We had fun and learned some science."

— Jeremy

"It's just marvelous. It's great for the kids. They're pretty bright. They know what a person is talking about because they ask questions."

— Evelyn, resident

"I liked meeting all the residents and getting to know them as friends."

— Ashley

"I enjoy being with the kids. They learn from us and we learn from them. I made several new friends. They learn how we live and I enjoy all the science experiments."

— Ernestine, resident

"I attended everything. The children were absolutely unbelievable. Their minds are working all the time. They come up with questions I can't believe come from a 10-year-old. I'm really amazed at the interest they showed — it's been a great education."

"The boat trip was fun — and spending time with Sally. I liked learning from the seniors."

— Catie
