

HealthPartners Geriatrics

Specialized medical care at your nursing facility or assisted living residence

As an older adult, you have special health needs. HealthPartners Geriatrics is a group of physicians and nurse practitioners that specializes in the care of older adults. We believe in caring for the whole person and understand the importance of both physical and emotional health. With a HealthPartners Geriatrics medical care team, you have compassionate partners who will be at your side when needed.

Your partner for on-site specialized medical care.

About HealthPartners Geriatrics

Our physicians and nurse practitioners work as teams to bring care to residents at metropolitan area nursing facilities and assisted living residences. Our medical care teams make both regular and urgent visits and coordinate all needed medical care services. We have a medical care team at most nursing facilities and at many assisted living residences in the metro area.

Our goal is to keep you as healthy as possible. The physician and nurse practitioner team will involve you and your family members as they create and implement a personalized care plan, and they will communicate with you when the care plan needs significant change.

HealthPartners Geriatrics is part of the Division of Home Care, Hospice and Geriatrics in the HealthPartners Medical Group. We have been helping older adults stay healthy since 1973, and now serve over

3,500 residents at community care facilities. Our offices are located at the HealthPartners headquarters building in Bloomington.

Some Very Special Services

HealthPartners Geriatrics medical care teams work with a comprehensive network of medical and surgical specialty physicians. These specialists know us and understand our work with residents at nursing facilities and assisted living residences. To assure your care is coordinated, we are all linked by a secure electronic medical record system.

We also offer unique specialty care services in psychiatry and orthopedics. If needed, specialists in these fields will visit you at your care facility. Our psychiatry services are provided by board certified psychiatrists and psychiatric nurse practitioners who specialize in working with older adults. Our onsite orthopedic services include diagnosis, treatment and post-surgical care.

Available When You Need Us

Our practitioners are available by phone 24 hours a day.

Hospital Affiliations

If hospitalization is necessary, our care team will make arrangements, assure coordination of care and be involved in discharge planning.

Our medical care teams are associated with the following hospitals:

Regions Hospital (St. Paul)

North Memorial Medical Center (Robbinsdale)

Mercy Hospital (Coon Rapids)

Lakeview Hospital (Stillwater)

Insurance

We accept Medicare, private insurance and most health plans. Our office staff is available to answer any questions relating to insurance.
