

Lifesprk brings its innovative Lifesprk Experience™ services to The Woods Memory Care at Oak Meadows. All tenants in The Woods are assigned a dedicated Life Care Manager (RN)/Life Care LPN. With an emphasis on sparking lives, the Lifesprk team makes available an array of services to all Woods' tenants.

- Nurse assessment to identify physical and cognitive needs prior to service initiation
- Ongoing assessments following changes in condition and care coordination as needed with other providers
- Medication management, including medication set-up, obtaining and implementing physician orders, monitoring effectiveness, coordinating and monitoring lab reports and adjusting medications as prescribed
- Assessing/monitoring changes in medical condition
- Dedicated caregiver supervision and monitoring
- Nurse on premises 40-hours per week during regular business hours Monday through Friday (excluding holidays)
- Access to on-call nurse 24/7 via phone
- Favorable caregiver to client ratio during waking hours
- Laundry services
- Escorts to and from apartment for meals
- Escorts to and from activities within and outside memory care
- Assistance with activities including socialization, purposeful, and leisure enriching activities
- Assistance with meal preparation and service
- Kitchen and dining areas cleaned following meals
- Bathing, dressing, and grooming
- Personal care
- Mobility assistance
- Transportation for appointments and outings
- Reassurance checks

Each tenant's Life Care Manager (RN)/Life Care LPN will use Lifesprk's Care Level Evaluation tool to help determine the individual Life Plan for your loved one. This tool helps to identify the intensity and frequency of the services that are needed. Some individuals need more assistance than others and needs may change over time. The assessment evaluates such areas as bathing, dressing, grooming, mobility, toileting, medication administration, behavior and symptom management, and dining assistance. Each area is assigned a point value from zero (0) to ten (10) based on the level of assistance required, supervision or reminders, 1-person assistance, and 2-person assistance, along with the necessary frequency. For example:

Bathing Assistance:

- 0 = No assistance required
- 1 = Needs assistance with reminders, cueing, and supervision
- 2 = Needs hands on assistance by one caregiver
- 3 = Needs hands on assistance by two caregivers
- +1 = Requires extra caregiver time or bathing more than 3 times per week

The score from the evaluation tool determines the level of memory care services for your loved one. Lifesprk is happy to assist you in creating an estimate of memory care fees based on your individual needs and wishes. For more information, contact Lifesprk directly at Oak Meadows: 651-578-0676
