

## **Tuesday, February 12 at 10:00 am, Community**

Shelby Domagala, a senior at Tartan High School, along with a representative from The Leukemia and Lymphoma Society (LLS) will be here to bring awareness to this LLS cancer epidemic. In the last 15 years, 21 cases of cancer from Tartan students and alumni have been reported. She is participating in the "Students of the Year" program which is a campaign January 7-February 26 with a fundraising goal of reaching \$50,000.

**She will be accepting donations this day.**

She realizes this is a lot of money, but she is determined to reach it so she can name a grant honoring a close family friend who lost their battle with cancer 8 years ago.

Come hear her story!
